1958 PUERTO RICO CENSUS OF BUSINESS

INTRODUCTION

Autoridad

El Censo de Negocios de Puerto Rico de 1958, y el Censo de Manufacturas de 1958, se llevaron a cabo conjuntamente por el Negociado del Censo de los Estados Unidos y la Junta de Planificación del Gobierno del Estado Libre Asociado de Puerto Rico. El Censo de 1958 se realizó de conformidad con una Ley del Congreso de los Estados Unidos, aprobada en 31 de agosto de 1954, Título 13 del Código de los Estados Unidos, Sección 131, y por una proclama del Gobernador del Estado Libre Asociado de Puerto Rico bajo la autoridad conferida a él por ley de 1a Legislatura, Ley Núm. 11, aprobada en 27 de marzo de 1950.

Area y Período Cubiertos

El Censo incluyó los establecimientos comerciales ubicados en los 77 municipios en que Puerto Rico está dividido.

Se solicitó de los establicimientos comerciales que proporcionaran información basada en sus actividades comerciales durante el año natural de 1958. Sin embargo, en aquellos casos en que las firmas llevaban su contabilidad a base de años fiscales, se aceptaron los informes del año fiscal mas cercano al año natural de 1958. El número de informes así rendidos fue pequeño, y se considera que no ha afectado las estadísticas.

Las cifras de empleo y nómina semanal se obtuvieron para la semana que terminó el 15 de noviembre de 1958 ó la más próxima a esta fecha

Alcance del Censo

El Censo cubrió los establecimientos dedicados al comercio y prestación de servicios como se describe en los siguientes grupos principales de acuerdo con el Manual de Clasificación Industrial Uniforme (edición de 1957) publicado por la División de Estadísticas Uniformes, Negociado del Presupuesto, Oficina del Presidente.

Clase de Negocios

| Comercio mayorista | 50 |
|---|---------|
| Comercio detallista | 52 - 59 |
| Servicios: | |
| Hoteles | 701 |
| Servicios personales, comerciales y de reparación | 72, 73 |
| Recreación y diversión | 78, 79 |

En su mayoría, las descripciones de las líneas de negocios para los cuales se presenta información en esta publicación, son esencialmente aquellas que corresponden a los grupos de tres dígitos según el Manual de Clasificación Industrial Uniforme, excepto para el grupo de Comercio al Por Mayor conde la información para agentes y corredores de mercancía se presenta por separado. La definición cabal de cada clase de negocio se encuentra contenido bajo "Descripción de Clase de Negocios" más adelante en esta publicación.

Authority

The 1958 Puerto Rico Census of Business, along with the 1958 Census of Manufactures, was conducted jointly by the Puerto Rico Planning Board, Government of the Commonwealth of Puerto Rico and the United States Bureau of the Census. The 1958 Census was authorized by an Act of the United States Congress approved August 31, 1954, Title 13, U. S. Code, Section 131, and by proclamation of the Governor of the Commonwealth of Puerto Rico under the authority granted to him by an Act of the Legislature, Law 11, approved March 27, 1950.

Area and Period Covered

This Census included the business establishments located in the 77 municipalities into which Puerto Rico is divided.

Business establishments were requested to file reports based upon their activities during the calendar year 1958. However, in those cases where records were maintained on a fiscal year basis, reports were accepted for the fiscal year which most nearly corresponded to the calendar year 1958. It is believed that the statistics are not materially affected by the relatively few reports filed on a fiscal year basis.

Figures on employment and weekly payroll were obtained for the week ending on or nearest November 15, 1958

Scope

The Census covers establishments engaged in trade and services as described in the following kind-of-business groups defined in the Standard Industrial Classification (SIC) Manual (1957 edition) issued by the Division of Statistical Standards, Bureau of the Budget, Executive Office of the President.

Kind-of-business group

| Wholesale trade | 50 |
|--|-----------|
| Retail trade | 52 to 59 |
| Service trades: | |
| Hotels | 70 1 |
| Personal, business and repair services | 72, 73 |
| Amusement and recreational services | 78 and 79 |

For the most part, the kinds of business for which data are presented in this publication correspond to the three-digit classifications shown in the SIC Manual, except that, for Wholesale Trade, information for merchandise agents and brokers are presented separately. The complete definition of each kind of business will be found under "Kind of Business Descriptions" below.

Comparabilidad con el Censo de Negocios de 1954

La inclusión de las agencias hípicas y de lotería en el Censo de Negocios para 1958 es la única diferencia respecto al alcance de este censo comparado con el de 1954. Es necesario señalar que, debido a las dificultades al tratar de clasificar por separado los negocios como colmados, los dedicados a expendio de comidas y bebidas y los caretines, estos han sido englobados bajo la nueva clasificación de Colmados, Expendio de Comidas y Bebidas en el Censo de Negocios de 1958.

Por primera vez, en el Censo de Negocios para 1958, se les pidió a los dueños de establecimientos comerciales informar por separado el valor de las mercancías retiradas para consumo personal o familiar. Apesar de que, las instrucciones para el Censo de 1954 requerían que la cifra de venta total incluyera el valor de estos desembolsos, informando por separado el valor de esta clase de mercancía resultaría que esta se informara con mayor exactitud. Para el comercio detallista el valor total de éstas mercancías ascendieron \$13,908.000 o sea, 1.0 por ciento del total de ingresos del cumercio al detal De este total, \$11,925,000 fueron informados por los colmados y establecimientos dedicados al expendio de comidas y bebidas, representando 4.0 por ciento del total de este grupo.

Métodos de Enumeración

El Censo fue llevado a cabo por medio de entrevistas personales, Para facilitar el trabajo de los enumeradores, se enviaron formularios por correo a todos los patronos cubiertos por el Censo que informaron a la Administración de Seguro Social Federal durante el tercer trimestre de 1957. Se pidió a estos bombres de negocios que no enviaran por correo los formularios una vez completados, sino que los retuvieran hasta tanto los enumeradores visitaran sus establecimientos.

La Isla fue dividida en cinco áreas cada una con un supervisor quien era responsable a la oficina central en San Juan

Cada enumerador cubrió sistemáticamente un distrito de enumeración a un tiempo, anotando en el Libro de Lista los nombres y direcciones de todos los establecimientos comerciales en esa área, y al mismo tiempo, examinaba y recogía los cuestionarios terminados, Al terminar su distrito de enumeración el enumerador entregaba su portafolio conteniendo el Libro de Lista y los cuestionarios terminados a la oficina de área donde se bacía un cotejo para asegurarse que el área había sido cubierta a cabalidad y se habían obtenido todos los informes necesarios.

Se obtuvo información de todos los locales de negocios reconocibles. Se excluyeron los pregoneros y vendedores ambulantes sin local de negocio establecido.

Se usó un formulario uniforme para recolectar los datos de todos los establecimientos comerciales. Se requirió de todos los duenos de establecimientos comerciales, sin considerar su tamaño, que llenasen el formulario del censo. En el apendice B se presenta una copia del formulario y de las instrucciones correspondientes utilizado en el censo.

Comparibility with the 1954 Census of Rusiness

The inclusion of lottery and racing agencies in 1958 is the only major difference in coverage in the 1958 Census compared to coverage in the 1954 Census. It should also be noted that because of the great difficulties encountered in trying to separately classify grocery stores, eating and drinking places and "cafetines," this distinction has been abandoned in the 1958 Census.

In the 1958 Census, business firms were asked, for the first time, to separately report the value of commodities withdrawn for personal or family use, while instructions in the 1954 Census also requested that sales include the value of such withdrawals, providing separate information for this item probably resulted in its being reported more accurately. In Retail Trade the total value of such commodities was reported as \$13,908.000 or 1.0% of the total Retail Trade receipts. Of this total, \$11,925,000 was reported by Grocery stores and eating and drinking places, representing 4.0% of the total for this group.

Enumeration Methods

The Census was conducted by personal interviews. To facilitate the work of the enumerators, forms were mailed to all employers within the Census scope which reported to the U.S. Social Security Administration during the third quarter of 1957. These businesses were instructed not to return the completed questionnaires by mail, but to retain them until the enumerators visited their establishments.

The Island was divided into five areas each of which bad a supervisor who was responsible to the central office in San Juan.

Each enumerator systematically canvassed one enumeration district at a time, entering in a Listing Book the names and addresses of all businesses in the area and, at the same time, reviewing and collecting the questionnaires. Upon completion of his enumeration district, the enumerator submitted his portfolio containing the Listing Book and all of the completed questionnaires to the area office. A check was then made to assure that the area had been completely canvassed and all necessary reports obtained.

Reports were obtained in the census from individual recognizable places of business. Peddlers and other itinerant vendors without established places of business were not canvassed.

One standard form was used in collecting data from business establishments. All establishments in the scope of the census, regardless of size, were required to file a report. Copies of the census report form and instructions are printed in Appendix B.

Revisión y Tabulación

Se examinaban los formularios para su terminación y consistencia, los enumeradores volvian a investigar el caso siempre y cuando que la operación ds revisión indicara que esa acción sra necesaria,

Toda recopilación, revisión y tabulación de los datos se llevó a cabo en Puerto Rico.

Publicación

Los resultados presentados en esta publicación están divididos en tres capítulos en la forma siguente: Estadísticas para Puerto Rico, Estadísticas para el Area Metropolitana de San Juan y Estadísticas para los Municipios, El Area Metropolitana de San Juan incluye los municipios de San Juan, Bayamón, Guaynabo, Cataño y Río Piedras.

Reglas del Censo para la Divulgación de Datos

De acusrdo con la ley que autoriza este Censo toda información que divulgue las actividades de un establecimiento en particular u organización comercial no debe ser publicada. El número de establecimientos en una clase de negocio no se considera una divulgación de información siempre que al presentarse omita toda información y localidad para esa misma clase de negocio.

EXPLICACION DE TERMINOS

Establecimientos: --El número de establecimientos presentados en este informe no es el total de las diversas "compañías" o firmas comerciales, sino la localización física donde la actividad comercial se llsva a cabo. Cada establecimiento ha sido anotado sólo una vez dependiendo de su actividad principal ya sea, comercial o prestación de servicio. Donde cos o mas actividades comerciales se llevaban a cabo en un mismo local y bajo un mismo dueño, las actividades fueron agrupadas y el establecimiento clasificado a base de su actividad principal.

Ingresos brutos totales: --El total de ingresos brutos incluye la suma total recibida, o por recibir como resultado de ventas hecbas, o servicios rendidos a los parroquianos de los establecimientos durante el año 1958. Estos representan el total de ventas e ingresos de los establecimientos (más el valor de las mercancías retiradas por el dueño para uso personal o familiar) y no meramente las ventas de una mercancía en particular asociada con la descripción de la clase de negocio. Total de ingresos brutos incluye además ingresos por alguna actividad comercial clasificada en una categoría principal distinta a la asignada al establecimiento; por ejemplo, mayoristas que venden al detal y detallistas que venden al por mayor.

Los ingresos recibidos por las agencias hípicas están duplicados e incluídos en dos clasificaciones:
"Agencias bípicas y de lotería" y "Servicios de recreación y diversión, n.c.a." La inclusión en la última clasificación se basa en el hecho de que los ingresos de las agencias hípicas no importa donde estén localizadas, se consideran parte de los ingresos de las carreras de caballos (una de las actividades incluídas en "Servicios de recreación y diversión, n.c.a.").

Editing and Tabulating

The forms were edited for completeness and consistency and snumerators were required to make callbacks whenever the editing operation indicated that such action was necessary.

All editing, tabulating, and compiling of data were accomplished in Puerto Rico.

Publication

This publication is divided into three chapters as follows: Statistics for Puerto Rico, Statistics for San Juan Standard Metropolitan Area, and Statistics for Municipalities. The San Juan Metropolitan Area includes the municipalities of San Juan, Bayamón. Guaynabo, Cataño and Río Piedras.

Census Disclosure Rules

In accordance with census law any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

EXPLANATION OF TERMS

Establishments. -- The number of establishments shown in this report are not counts of the number of different "companies" or firms but of physical locations at which a particular business activity is performed. Each establishment is counted only once depending upon its principal trade or service activity. Where two or more activities were carried on at a single location under a single ownership, all activities were generally grouped together and the entire establishment was classified on the basis of its major activity.

Total Receipts. -- Total receipts include the total amounts received or due to be received as a result of sales to, or services rendered to, the customers of the establishments during the year 1958. They represent the aggregate sales and receipts of the establishments (plus the value of commodities withdrawn by ths proprietor for personal or family use) and not merely the sales of the particular commodities associated with the kind-of-business description. Total receipts also include income for business activity classified in a major category different from the one assigned to the establishment; for example, wholesalers may have receipts for sales made at retail, and similarly retailers for any sales made at wholesale.

It should be noted that receipts of horse race betting agencies are completely duplicated, being included in two classification: "Lottery and racing agencies" and "Recreation services and amusements, n.e.c." Inclusion in the latter classification is based on the fact that receipts of horse race betting agencies no matter where located are considered to be part of the receipts of race tracks (one of the activities included in "Recreation services and amusements, n.e.c.").

Nómina de pago: --La nómina constituye el total pagado por concepto de sueldos, jornales, bonos, comisiones, pagos por destituciones, pagos por vacaciones o licencias por enfermedad, compensación en especie, anterior a las deducciones, tales como contribuciones al Seguro Social, cuotas de uniones y seguros. La nómina incluye los sueldos de los oficiales y ejecutivos de las corporaciones y sociedades. Excluye los desembolsos de propietarios y socios.

Empleados con paga: --Empleados pagados son todas aquellas personas que recibieron paga por trabajo rendido en cualquier momento durante la semana que terminó el 15 de noviembre de 1958, o en el período de pago mas cercano a esta fecha. Tambien incluye a todas las personas que recibieron paga mientras estaban ausentes por enfermedado que estaban en vacaciones durante este período de pago. Los propietarios y socios están excluídos del número de empleados con paga.

DEL GOBERNADOR DEL ESTADO LIBRE ASOCIADO DE PUERTO RICO

Censo de Negocios y de Manufacturas, 1958

POR CUANTO, el Gobierno del Estado Libre Asociado de Puerto Rico está propulsando un programa de desarrollo económico, mercantil e industrial con el propósito de crear nuevas oportunidades de trabajo y mejorar los niveles de vida de nuestro pueblo;

POR CUANTO, conviene a los intereses generales del pueblo de Puerto Rico levantar inventarios de sus recursos comerciales e industriales y determinar sus niveles de progreso periódicamente;

POR CUANTO, la información más reciente sobre Censos de Negocios y Manufacturas correspondientes a los años 1949, 1952, 1954, 1956 respectivamente, no refleja los niveles de progreso comercial e industrial alcanzados durante los últimos años, y se hace necesario actualizar la información para ponerla a tono con el avance social y económico logrado;

POR CUANTO, la Ley Núm. 11 aprobada el 27 de marzo de 1950 dispone que se lleven a cabo en Puerto Rico censos de manufacturas y negocios cuando el Gobernador estime que así hacerlo es de conveniencia pública; y dispone, además, que los establecimientos comerciales y manufactureros deben llenar cabal y fielmente los cuestionarios necesarios, garantizándoseles en la misma Ley que la información que suministren será de carácter confidencial y solamente será usado para fines de tabulación estadística;

POR TANTO, YO, LUIS MUÑOZ MARIN, Gobernador del Estado Libre Asociado de Puerto Rico, a virtud de los poderes que confiere la dicha Ley Núm. 11 del 27 de marzo de 1950, por la presente proclamo y ordeno que se lleven a cabo en Puerto Rico Censos de Negocios y Manufacturas para el año natural de 1958; y designo a la Junta de Planificación para que en cooperación con el Negociado del Censo de Estados Unidos lleve a cabo dichos censos para dar cumplimiento a la Ley de referencia y a las disposiciones de la presente proclama.

PROCLAMATION

BY THE GOVERNOR OF THE COMMONWEALTH OF PUERTO RIGO

1958 Census of Business and Manufactures

WHEREAS, the Government of the Commonwealth of Puerto Rico is fostering a program of economic development, both commercial and industrial, for the purpose of creating new opportunities for employment and improving the standard of living of our people;

WHEREAS, it is in the interest of the people of Puerto Rico to take inventories of their commercial and industrial resources and determine periodically the levels of progress achieved under its program;

WHEREAS, the most recent information concerning the Gensuses of Business and Manufactures, covering the years 1949, 1952, 1954, and 1956 respectively, does not reflect current business and industrial progress, thus making it necessary to bring such information up to date in order to assess properly the economic and social progress of the period;
